THREE FIRE ALARMS IN EIGHT HOURS

This has been a day of fire alarms, the boys being called out three times between 4 a. m. and noon, the first being the negro pool hall, which was destroyed.

The second alarm came from Prof. G. T. Howerton's home on the extreme end of 7th street in Capitol Hill addition, but the threatened conflagration, which is reported to have

started from a stove, was quickly extinguished before the fire wagon arrived.

About noon the whistle sounded again, and another run was made to the west side, only to find that some grass and tarred paper were burning, the tar making a lot of smoke which scared some one.

PLAIN TALK FROM A REPUBLICAN EDITOR

Omer Benedict, Editor of the Oklahoma State Farmer, Condemns Aiken Bill to Abolish State Schools.

In the wild scramble to economize, the school system of the state is to be attacked.

According to well-authenticated reports, an initiative petition is now in the hands of the printer to do away with thirteen of the educational institutions of the state. Governor Cruce is alleged to be the father of the bill, which proposes to abolish the state normals at Alva, Ada, Tahlequah and Weatherford; the district agricultural schools at Warner, Tishomingo, Broken arrow, Lawton, and Helena; also the Panhandle Agricultural Institute at Goodwell, the preparatory schools at Tonkawa and Claremore, the State School of Mines at Wilburton, and the negro school at Taft, and to change the Girls' Industrial school at Chickasha into an agricultural school.

If such a bill should carry, the state would be left with but two normal schools, one at Edmond and one at Durant, and the State University at Norman, the A. & M. College at Stillwater, and the Chickasha school. The latter would be the only state educational institution west of the Santa Fe railroad.

This plan to rob our girls and boys of an opportunity to get an education is based upon a proposition to save the penalty of mal-administration—to give other departments additional capital upon which to flourish.

It is another attempt of Governor Cruce—"bent backward" by criticism of an opposition press, who said in the primary and campaign that he was a "weakling"—to administer the affairs of state regardless of his friends, his party, his own future—consequences of any kind.

When the question of a special session was before the governor he asked the advice of the members of the legislature. The facts that we present in this issue were concealed from the public, yet the legislators knew them and urged the necessity of a special session. His friends and most sincere advisers urged it. More obstinate, he put it to the partisan press of the state. The republican press—nearly one-half—opposed it for political reasons; the democratic press was divided for economic reasons—

lack of understanding the seriousness of the problems that confronted the state.

Cruce took this straw—offered by his ill-wishers—upon which to hang his decision. Then, as the emergency forces itself—refuses to be side-stepped—he is compelled to either yield or use the pruning knife.

This bill is said to be his remedy—the schools the victims.

Is there any reason why such a measure should be adopted?

EARLY MORNING FIRE IN THE FLATS

DESTROYS POOL HALL AND SMALL HOUSE ADJOINING—ORIGIN OF FIRE UNKNOWN.

About 4 o'clock this morning fire destroyed the two story negro pool hall in the flats and also a small building next to it. The two firemen turned out with the team when the alarm was given, but the hose was not long enough to reach to the nearest plug, and nothing could be done. The roofs of both houses were falling in when the alarm was turned in, and had evidently been afire for sometime. The firemen report that there was not a negro to be seen in the neighborhood during the fire. So far as known, there is no clue to the origin of the fire.

The two story building was the property of Ollie Lancaster.

THANKSGIVING WELCOME

(By A. Floyd, Principal Irving school) Welcome, all friends so faithful and true,

Welcome rings forth from each heart to you,

Welcome you with songs and recitations today,

That you might give praises to the Creator for Thanksgiving Day.

Welcome the tramping of swift eager feet,
For the hearts of us pupils in unison beat,

Welcome! the city and all that is fair
Treasure of workmanship, riches and rare.

Visions of beauty and dreams of delight,
For the prospects of Ada that are now in sight,
Liberty of action, waving her torch to the sky,
Domes (in our imagination) with proud heads uplifted on high.

Welcome the birds that fly in the air,
And welcome is heard from our school room chair,

For the rain-bow has given its colors away,
To the children of nature this grand Thanksgiving Day.

on bill that would destroy over a dozen of the state schools. Almost without exception the papers that come to the exchange table of the News condemn said measure as being uncalled for and ill-advised. They are agreed on the very sensible view that if there are too many schools, it should first be determined which are doing the least work and can be spared the most easily; then wipe them out, instead of taking a shotgun sweep of the whole bunch as the Aiken bill designs to do.

The "schoolkillers" is the name that will probably attach to the band of ardent patriots that have decided to take advantage of the present cry of "high taxes" to carry out, through an initiated bill, the vandal act of destroying at one blow two-thirds of the state's secondary educational institutions. The belief is rapidly gaining currency that this movement is being fostered by alleged friends of the university, and if this is true, it is going to react upon the university in a way that bodes ill for its future. We believe there are too many schools but the way to weed them out is by ascertaining, first, which are the weakest ones and, second, which are the most extravagant and expensive ones in proportion to their enrollment. With reliable data on these two points any legislature will refuse to appropriate money to continue schools that have been demonstrated to be failures. This city has no state school; it is building two handsome universities, and would profit, possibly, by the discontinuance of state schools, but our people will never countenance such an act of unwarranted vandalism as the destruction of every east-side school but one, and more than two-thirds of all the schools of higher education in the state.—Shawnee News.

THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble.

My husband asked me to try Cardui. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardui.

Cardui is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

PLAIN TALK

(Continued from page 1.)

The total cost of these schools is less than twenty cents on every thousand dollars of assessed valuation in the state. If this bill was to pass, and these thirteen state institutions abandoned according to its terms, it would mean a saving of less than ten cents on every thousand dollars owned by our taxpayers.

Do you imagine that one of our farmers owning a one, two, three, four or five thousand dollar farm would object to paying 10, 20, 30, 40 or 50 cents a year rather than see these institutions destroyed?

No, indeed! There may be other institutions of state—doubtless are—that he would cheerfully approve cutting off with half, or possibly, no ration at all, but he should not want to take this ten cent piece out of the learning of the girls and boys of Oklahoma.

We may dwell upon these other departments of state later.

Today we are defending the school system of Oklahoma. We do not deny that the state may have been over-zealous in creating so many schools, or that many of them have not reached a degree of efficiency that is to be desired—they are still in their infancy. It may be true also that some of them are conducted extravagantly, but there is a way of economizing without destroying them. The state inherited five millions in cash and many millions more in school lands with which to build them. We have already spent hundreds of thousands in bringing them up to their present degree of efficiency.

The Oklahoma State Farmer says—

KEEP THEM!

Oklahoma has already attained a proud standing in educational development. This state has fewer illiterates in proportion to its population than any in the union, except one. Our school system is excelled by few states.

WHY NOT MAINTAIN THAT RECORD?

GET READY FOR THE DISTRIBUTION OF PREMIUMS.

The time is drawing near when the distribution of premiums offered by the business men of Ada to the cotton growers who market at Ada, will be made. In this, the man who brings just a few bales to Ada stands a chance to receive a nice premium in addition to the money received for his cotton, just the same as the man with a heavy crop. If any farmer has not yet brought in his cotton, he should do so before Dec. 14, the date set for the distribution of the premiums.

YOUNG MOTHERS

is woman's safest reliance; it is a medicine for external use, composed of oils and other ingredients which assist nature in all necessary physical changes of the system. Its regular use before the coming of baby prepares the muscles and tendons for the unusual strain, aids in expanding the skin and flesh fibres, and strengthens all the membranes and tissues. Mother's Friend lessens the pain and danger at the crisis, and leaves the mother in such healthful condition that her recovery is always rapid and natural. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

CALUMET

The BAKING POWDER

That Makes the Baking Better

Failures are almost impossible with Calumet. We know that it will give you better results. We know that the baking will be purer—more wholesome. We know that it will be more evenly raised. And we know that Calumet is more economical, both in its use and cost. We know these things because we have put the quality into it—we have seen it tried out in every way. It is used now in millions of homes and its sales are growing daily. It is the modern baking powder. Have you tried it? Calumet is highest in quality—moderate in price.

Received Highest Award—World's Pure Food Exposition.

SPEAKER DURANT OPPOSES AIKEN BILL

R. M. Roddie, who spent Tuesday in Muskogee, brings back some encouraging news concerning the school abolition situation. It had been generally supposed, and likewise currently reported, that since the Aiken bill did not wipe out the Durant normal, Speaker W. A. Durant was in favor of it. This he most indignantly denied to Mr. Roddie, and stated that he would make a speech today before the teachers of Bryan county that will take the hide off the bunch that would destroy the state schools by wholesale, and if necessary will take the stump.

Mr. Roddie also met two members of the state board of agriculture, who told him that the citizens of Payne county, where the A. & M. college is located, instead of favoring the bill, will do all in their power to keep the petitions from being circulated. Instead of being an aid to the A. & M., they realize that it would deprive it of a number of its feeders, and would react against it.

Representatives of this board are expected to be at Ada Monday to aid in devising measures to snow the Aiken bill completely under.

Baraca and Philatheas Will Entertain

The Baraca and Philatheas classes of the First Methodist church will give a Thanksgiving entertainment at the church tomorrow evening beginning at 7:30. The program will consist of literary and musical numbers. Special features of the occasion will be musical numbers by Miss Kendrick the new teacher at the Normal, and readings by Miss Eva Brooks, teacher of expression in the Methodist college at Oklahoma City. Miss Brooks is a sister of Rev. C. L. Brooks, pastor of the church.

At the conclusion of the program a social hour will be spent. All Methodist young people of Ada are invited to be present.

PATE GIVEN TEN YEARS FOR PERJURY

The Anthony Pate perjury case went to the jury at noon today, and shortly before 4 o'clock the jury returned a verdict of guilty, and assessed the punishment at ten years in the penitentiary. This case arose from testimony Pate, a constable from Coal county, gave in the Mack Lee case over two years ago, when he was put on the stand to prove an alibi for Lee on a certain date shortly after the assassination of City Marshal Zeke Putnam at Allen.

Water Power Withdrawals.

Over a million and a half acres of public land now stand withdrawn by the government as being valuable for the possible development of water power. During October the United States Geological Survey recommended the withdrawal of 54,422 acres as having power possibilities and the re-storal of 2,600 acres in Montana and Wyoming because field examination by the survey showed them not be valuable for that purpose.

GOOD NEWS.

Many Ada Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in Ada are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Thousands upon thousands of people are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

John Gentilini, ice manufacturer, of Coalgate, Okla., says: "About a year ago I used Doan's Kidney Pills, procured at Lane & Son's Drug Store and found them very effective in ridding me of a long-standing case of kidney trouble. I suffered from a dull ache through the small of my back and limbs and I had other symptoms of kidney disease which were very annoying. Doan's Kidney Pills helped me from the first and it was not long after I began using them that every symptom of my trouble disappeared."

NOTICE TO THE PUBLIC.
 For the convenience of the public, the Evening News will hereafter be on sale at the Post-office News stand for the small sum of 2c. The same rate will prevail at the News office. This is less than the actual cost of the paper, and it is impossible to make the price any lower. The publishers would like to give it away, but every paper costs money to print, and if it is worth reading at all, the News is certainly worth the small sum asked for it.

DEMOCRATS AIDING ELECTION OFFICIALS CONVICTED AT ENID

Oklahoma City, Nov. 29.—Checks for \$335.87 each were mailed Monday, to Frank Guinn and J. J. Beall, the Kingfisher county democratic election inspectors who were convicted recently in federal court at Enid and sentenced to terms in the penitentiary, for conspiracy to prevent negro citizens from voting, through enforcement of the "grandfather clause" law in the last general election.

The checks were sent by Duke Stallings of the democratic state central committee, and represent a portion of the amount subscribed by the committee members at the last meeting, toward defraying the expenses of the inspectors from the time of the arrest until the convictions.

Approximately \$2,500 was subscribed and \$671.75 has been received up to date. The cases are now held in statu quo, awaiting perfecting of an appeal to the United States circuit court of appeals at St. Louis.

"OK" CEMENT PLANT RESUMES OPERATIONS

The plant of the Oklahoma Portland Cement Co., which has been shut down for some weeks on account of the surplus of cement on hand and because of the scarcity of laborers, started up again in every department today and will keep grinding as usual hereafter. Now that the cotton season is nearing a close there will be plenty of men and no further occasion to shut down.

If the Ada mill wins its fight against discrimination in rates by the railroads—and in view of the decision of the Interstate Commerce Commission in the plaster cement mills case, it seems as it will—the greatest handicap it has had since beginning operations will have been removed, and with an enlarged market and territory, it will keep the company hustling to supply the demand, thereby adding greatly to the pay-roll disbursed here. This money brought in from the outside is what counts.

Look Around and Don't Get Stuck

There's a difference in the quality of lumber—and in prices, too—and unless you look around a bit before placing your bill for that new—well! whatever it is you are going to build—you're mighty apt to get stuck.

What's the use of taking chances, anyway? We'll be only too glad to make you an estimate on whatever you want in lumber or any kind of building material, and if we can't prove that it's to your advantage to buy from us, then you can go elsewhere. But get our figures, anyway.
